

THE *GERMIEST*

THINGS IN YOUR OFFICE

DESKTOP

Average of 21,000+ germs per square inch

Remove all items from the surface of your desk and wipe thoroughly to clear all dust

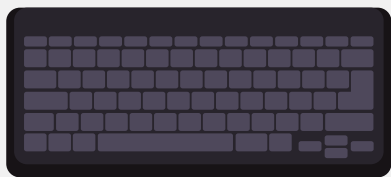

OFFICE PHONE

Average of 25,000+ germs per square inch

Wipe down your office phone regularly, pay extra attention to the receiver and keyboard

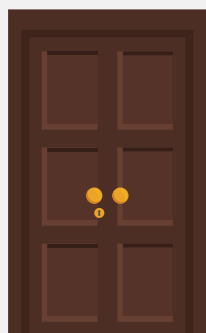

KEYBOARD

Your keyboard may contain more germs than your toilet seat

Wipe down regularly and turn over to dislodge trapped dirt & debris - don't forget your mouse too!

DOOR HANDLE

Chief spreader of viruses like COVID-19

Clean both sides of your own office door handles - for large workplaces, develop a plan to have all wiped at least once daily
